Senior Front-End & Mobile Engineer with 4+ years of experience building enterprise web and mobile applications using React, React Native, Next.js and TypeScript. Specialized in government platforms, fintech solutions, Technical SEO and native Android/iOS integrations.

Experience

Arka Data Process Approach • Tabriz, Iran

Front-End Web Engineer

Jan 2024 – Present

- **Enterprise Government Platforms:** Designed and delivered enterprise-grade government systems, including the Iran International Trade Single Window, with a strong focus on scalability, maintainability, accessibility, and security.
- **Technical SEO & Performance:** Led Technical SEO and Core Web Vitals optimization initiatives, improving rendering performance, crawlability, indexing quality, and overall search visibility.
- **Frontend Architecture:** Architected scalable frontend solutions by applying SOLID principles, reusable component systems, feature-driven architecture, modern design patterns, and efficient state management with Redux Toolkit and Zustand.

React Native Mobile Developer

Jul 2022 – Jan 2024

- **Native Hardware Integration:** Developed custom Android and iOS native modules and bridges enabling secure communication between React Native applications and POS terminals for payment processing and invoice generation.
- **FinTech Applications:** Built secure cross-platform payment applications featuring encrypted API communication, offline-first workflows, and reliable transaction processing under unstable network conditions.
- **Cross-platform Development:** Maintained a unified React Native codebase, accelerating release cycles while ensuring native performance and a consistent user experience across Android and iOS.

Projects

Iran International Trade Single Window >> intsw.ir

Enterprise government platform for international trade services built with React, Next.js, and TypeScript.

NTSW Android >> cafebazaar.ir

Android application for the National Trade Single Window ecosystem.

Mishab POS >> mishab.ir

Cross-platform React Native payment application with native Android/iOS POS integration.

Skills

Frontend	React • Next.js • TypeScript • antd • shadcn/ui • Tailwind CSS
Mobile	React Native • Android Studio • Java • Native Modules
Backend	Node.js • Express • REST APIs • MongoDB
Architecture	Design Patterns • Redux Toolkit • Zustand • Clean Code • Modular Architecture
Performance & Tools	Technical SEO • Core Web Vitals • React Query • Bundle Size Optimization
