Front-End and Mobile Engineer with 4 years of experience building scalable web and mobile applications using React and React Native. Experienced in full-lifecycle product development, ranging from high-traffic government platforms to specialized payment applications requiring native Android/iOS hardware integration. Combines strong front-end optimization skills (Technical SEO, Core Web Vitals) with a fast-learning mindset and a solid familiarity with backend tooling like Node.js .

Experience

Arka Data Process Approach • Tabriz, Iran

Front-End Web Engineer

Jan 2024 – Present

- **Built** enterprise government platforms with React, Next.js, and TypeScript.
- **Improved** Technical SEO and Core Web Vitals, increasing performance and search visibility.
- **Designed** scalable front-end architecture using Redux Toolkit and Zustand.

React Native Mobile Developer

Jul 2022 – Jan 2024

- **Developed** cross-platform React Native payment applications.
- **Integrated** Android and iOS native modules with POS hardware.
- **Maintained** a shared mobile codebase with secure API communication.

Projects

Iran International Trade Single Window >> intsw.ir

Enterprise government platform for international trade services built with React, Next.js, and TypeScript.

NTSW Android >> cafebazaar.ir
