mahdijeddi.ir • github/mahdijeddidev • linkedin/mahdi-jeddi

Front-End and Mobile Engineer with 4 years of experience building scalable web and mobile applications using React and React Native. Experienced in full-lifecycle product development, ranging from high-traffic government platforms to specialized payment applications requiring native Android/iOS hardware integration. Combines strong front-end optimization skills (Technical SEO, Core Web Vitals) with a fast-learning mindset and a solid familiarity with backend tooling like Node.js .

## Experience

### Arka Data Process Approach

• Tabriz, Iran

|                        |                    |
|------------------------|--------------------|
| Front-End Web Engineer | Jan 2024 – Present |
|------------------------|--------------------|

- **Built** enterprise government platforms with React, Next.js, and TypeScript.
- **Improved** Technical SEO and Core Web Vitals for better performance and search visibility.
- **Designed** scalable front-end architecture using Redux Toolkit and Zustand.
- **Collaborated** with backend, design, and QA teams throughout the product lifecycle.

|                               |                     |
|-------------------------------|---------------------|
| React Native Mobile Developer | Jul 2022 – Jan 2024 |
|-------------------------------|---------------------|

- Developed cross-platform React Native applications for Android and iOS.
- Built custom native Android/iOS modules to integrate POS hardware for secure payment processing.
- Delivered reliable fintech applications with secure API communication and offline-friendly workflows.
- Maintained a shared codebase while ensuring native performance and consistent user experience.

## Projects

### Iran International Trade Single Window — <https://intsw.ir>

Enterprise government platform for international trade services built with React, Next.js, and TypeScript.

### Mishab POS — <https://mishab.ir>

Cross-platform React Native payment application with native POS terminal integration.

### NTSW Android — <https://cafebazaar.ir/app/ir.ntsw>

Android application for the National Trade Single Window ecosystem.

## Skills

|          |                                                                   |
|----------|-------------------------------------------------------------------|
| Frontend | React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS |
|----------|-------------------------------------------------------------------|

|                         |                                                    |
|-------------------------|----------------------------------------------------|
| <b>Mobile</b>           | React Native, Android, Java, Native Modules        |
| <b>State Management</b> | Redux Toolkit, Zustand                             |
